Part 2 - Provision of information and process for engagement on matters outside the scope of the Act

The guiding principles of the Joint Management Agreement with Waikato Tainui specifically state that Council and the Trust will:

- Work together to achieve the overarching purpose of the settlement
- Recognise and give effect to the vision and strategy for the river
- Act in a manner consistent with the principles of the Tiriti o Waitangi
- Commit to work together in good faith and with a spirit of co-operation
- Commit to open, honest and transparent communication
- Commit to participate effectively in co-management
- Recognise and acknowledge that the parties will benefit from working together by sharing their respective vision, knowledge and expertise
- Ensure early engagement and a 'no surprises' approach
- Recognise that the relationship between the parties will evolve

With these guiding principles in mind, this section of the schedule sets out a process for information sharing on resource consent matters in which the Trust may have an interest. The parties acknowledge that such resource consent matters are outside the scope of activities set out in

section 47(1)(b) and are outside the scope of the Act. Nevertheless, the parties have agreed to record the proposed process as part of this schedule to the Joint Management Agreement.

The parties have further agreed that the matters set out in Part 2 of this schedule shall be subject to the provisions of section 52 of the Act (Extension of the Joint Management Agreement).

It is noted that Council currently sends a weekly list of all resource management applications received to iwi management groups with the Waikato district. The Trust is one of the recipients on this list and therefore, has an awareness of all applications received by the Council, including those that fall outside the scope of the Act.
